IDEATION PHASE — PRIORITIZATION

Brainstorm & Idea Prioritization Template

Date	24 October 2026	**Team ID**	TEAM-ITSM-04-SWUID2026171428
Project Name	Software Request Automation	**Maximum Marks**	4 Marks

How Might We (HMW) Statement:
"How might we create a standardized, automated Service Catalog item in ServiceNow so employees can request licensed software with instant visibility, automated approvals, and rapid IT fulfillment?"

Brainstormed Idea Clusters:

Cluster A: Service Catalog & User Interface
- Dynamic dropdowns for software version & license tier.
- Business justification field validation rules.
- Live available license seat counter on the request form.

Cluster B: Workflow & Approval Automation
- Auto-routing to manager based on user profile hierarchy.
- Conditional secondary approval for high-cost software.
- Automated SLA reminder notifications to approvers.

Cluster C: License Management & Rules
- Scripted validation checking seat counts before submission.
- Auto-reservation of license seats upon ticket submission.
- Out-of-stock alert banner and alternative suggestions.

Cluster D: Fulfillment & Deployment
- Automated creation of IT Catalog Tasks upon approval.
- Integration with deployment tools (SCCM) for silent push.
- Automated audit logging of device serial & license keys.

Idea Description	Feasibility	Impact	Priority Classification
Standardized Service Catalog Form with Dynamic Dropdowns	High	High	Quick Win
Dynamic License Availability Check Business Rule	High	High	Core Feature
Automated Approval Workflow (Manager & Asset Owner)	High	High	Core Feature
Auto-Task Generation for IT Support Fulfillment	High	High	Core Feature
SCCM / Client Management Tool Zero-Touch Integration	Medium	High	Strategic Roadmap
