Project Name	Software Request Automation	**Maximum Marks**	4 Marks

Target User Persona: Corporate Employee Requesting Licensed Software

THINK & FEEL 🧠

- **Preoccupation:** "Will I miss my project deadline waiting for software?"
- **Wants:** Rapid access to tools without red tape.
- **Worries:** Being rejected or breaching compliance rules.
- **Internal thought:** "Why isn't software deployment instant?"

HEAR 👂

- **Colleagues:** "Send an email to IT support and follow up next week."
- **Manager:** "Ensure you have budget approval before submitting."
- **IT Alerts:** "Use official Service Catalog channels for license compliance."

SEE 👁️

- **Environment:** Long email chains and disconnected support forms.
- **Market Benchmarks:** Consumer app stores offering instant 1-click downloads.
- **Peer experience:** Team members blocked for days awaiting license keys.

SAY & DO 💬

- **Actions:** Submits tickets and regularly pings IT for status updates.
- **Public statements:** "I am currently blocked on work until IT processes my request."
- **Behaviors:** Searches for temporary workarounds when delays occur.

PAIN ⚠️

- Long turnaround times and complete lack of request status visibility.
- Manual follow-ups needed across manager and IT desk.
- Uncertainty regarding seat availability and software budget.

GAIN 🎯

- Real-time status tracking directly on the Service Portal.
- Automated manager routing and quick license entitlement.
- Seamless single-click catalog ordering experience.
